December, task 1, 10-10-10

Answer 1: Because the actual monthly fertilization and pest control program will be based upon soil sample analysis, we have no requested rate for those months. It is up to the Contractor to evaluate the field areas and square footage to determine the appropriate rate of the type of fertilizer.

Question 2: Group 2, under the month of October. Is this annual rye grass or perennial?

Answer 2: Annual rye grass.
